HOME CARE PACKAGES WITH DEAF CONNECT

Home Care Packages (HCPs) are available for Deaf Seniors in Queensland, New South Wales, Victoria, Western Australia, Australian Capital Territory, and South Australia!

HCPs provide personalised, flexible care services for seniors to ensure they can live independently in their home.

With a HCP, you can get assistance with daily tasks, transportation, social connections, and more. HCP services are flexible and based on your needs, to support your lifestyle whether your care requirements are simple or more complex.

What's different about Ageing Well?

Deaf Connect's Ageing Well provides HCP services directly in Auslan, making sure you feel understood and your needs are responded to promptly.

How can a HCP help me?

Deaf Connect as your home care provider can provide support with personal care, daily activities, and social connections. Our service offers you flexible, holistic support in Auslan, helping you maintain your independence and wellness.

Specific services are client-led, but can include:

Assisting with household chores, laundry, and shopping

Arranging transportation for social outings, shopping, and appointments

Providing support with personal care tasks such as showering, dressing, and toileting

Conducting general home maintenance, including gardening, gutter cleaning, and minor adjustments

Facilitating connections with local social groups, outings, and community engagements
